

Traffic Control

Reference:

- Alabama Department of Transportation Standard Specifications for Highway Construction, latest edition.
- National Manual on Uniform Traffic Control Devices, Millennium Edition, latest revisions.
- Tuscaloosa Department of Transportation.
- City of Tuscaloosa, Alabama.

Delivery, Storage and Handling:

The Contractor shall deliver and store or have readily available traffic control devices of the correct type and sufficient number far enough in advance not to delay the progress of the work.

PRODUCTS

- All signs, barricades, etc., used along the project shall be in accordance with the provisions of the National Manual on Uniform Traffic Control Devices, Millennium Edition, latest revisions. Plan details shall also conform to the requirements of the Tuscaloosa Department of Transportation and Alabama Department of Transportation.
- All reflectorization of barricades, signs, drums or other devices shall be in accordance with the National Manual on Uniform Traffic Control Devices, Millennium Edition, latest revisions.

EXECUTION

Installation:

- No road or section of road shall be closed to traffic and no construction shall be started until adequate provisions have been made to detour or by-pass the traffic in safety and convenience. Traffic control shall be maintained as long as necessary. Notify the University of Alabama Parking Services and The City of Tuscaloosa prior to any work.
- Roads must be kept open at all times, and access shall be maintained at all times to businesses and facilities. Contractor shall at a minimum maintain one (1) open lane of traffic unless approved by University Parking Services or the City of Tuscaloosa.
- When the contractor performs any operations after daylight hours, all traffic control devices need to be left in place, and the contractor shall provide and maintain, at his expense, sufficient artificial lighting to permit proper construction and inspection and to provide proper safety precautions.

- Flagmen shall utilize “STOP-SLOW” paddles in addition to flags.

Maintenance:

- All damaged, defaced or dirty signs or barricades shall be repaired or replaced immediately.
- All signs, posts, drums, etc. used throughout the job shall be uniform in size and color.
- The maintaining of traffic may require the use of flagmen in some areas. All flagmen shall wear an approved uniform as required by the Alabama Department of Transportation Standard Specifications, latest edition and the National Manual on Uniform Traffic Control Devices, Millennium Edition, latest revision.
