

## Bus Shelters and Bike Shelters

This design guideline is written to the designer of record (DOR). This guideline is written to document UA standards of work, assist the designers in ensuring UA standards are incorporated into the contract documents and provide a resource to facilitate the design process. It is the designer of record's responsibility to coordinate the criteria set forth in design guideline and in conjunction with the manufacturer requirements and use the most stringent standard.

### Bus Shelters

1. Roof to be slate, not stainless steel turne metal.
2. See Section IV for standard drawing. **Designer Note:** Drawings for design concept only. Roof material and size of shelter to be modified.

### Bike Shelters

1. Designer shall contact UA for user of covered bike racks.
2. Design shall be similar to standard bus shelter style.
3. Roof to be slate, not stainless steel turne metal.
4. See Section IV for standard drawing.
